**Subject:** Compilation of SOPs----->Done

Hi Cindy,

All SOPs and Methods have been compiled. Since I do not have access to save to the ATeam directory, I saved them at I: OASQA Quality System\Dimock SOPs.

I will be happy to save them to the FTP site if you have a few minutes to show me.

VOA SOP----- has been submitted for it's 2 year review. It has been submitted and is pending approval.  
SVOA SOP----- in currently undergoing an update for it's 2 year review. It has not been submitted as of today.  
O&G-----John is following the SOP except he is not using SPE but is manually filtering. That is noted on the SOP listing.  
Glycols-----ASTM D7731-11 used for 2-butoxyethanol and 2-methoxyethanol. EPA Method 8321B for glycols. This is noted on the SOP listing.  
Nitrate+Nitrite-----Method used is QuiK Chem 10-107-04-1-C. It is noted on the SOP listing.  
Total Nitrogen-----Method used is QuiK Chem 10-107-04-4-A. It is noted on the SOP listing.  
Alcohols SOP signed today, 01-30-12.

Whew!

Jill
